To Whom It May Concern,

It is my pleasure to write in support of Jeanna Dressel. Ms. Dressel has worked for the organization I direct, the Mason Gross School of the Arts Extension Division, for the past five years. During this time, Ms. Dressel has been a Teaching Assistant to our visual arts program chair, has taught outreach classes at the Division's Outreach offerings at Freehold Boro's Park Elementary School, and has taught the visual arts component of the Division's Kids Create summer camp.

As a teaching assistant, Jeanna provided support in classroom management, coordination of instruction, and in supporting the lead teacher's work with students ages 7-14. As an outreach program instructor, Jeanna provided grade-level-appropriate visual arts instruction to students in the school's after school program. In her capacity as a summer camp instructor, Jeanna supervised students, counselors, and led instruction for students of multiple grade levels.

In all situations, Ms. Dressel has proved to be a very reliable employee and a fine instructor. Her lesson plans and teaching style are engaging and well received. Feedback from colleagues, students, and the supervisor of Freehold Boro's after school program all confirm this view.

On a personal level, I give Jeanna my highest recommendation. She is consistently courteous, conscientious, earnest and dependable in all aspects of her conduct. She possesses a keen intellect and a fine work ethic.

Please feel free to contact me should you need any further information.

Sincerely,

Christopher Kenniff
